WMG Water Harvesting Certification Application

Instructions: Please answer the following questions in two pages or less and submit a one-page resume. No cover letter is necessary. Include name, address, email address, and phone number on application.

Please mail applications to: Watershed Management Group, PO Box 65953, Tucson, AZ, 85728. For our November 12-21, 2011, course in Tucson, applications must be postmarked by September 20 for early registration. No applications will be accepted after October 11.

1. Describe why you would like to participate in the Water Harvesting Certification program. How will you use your training in your work?
2. What skills, education, or training do you have relevant to water harvesting that will prepare you for this course?
3. This course is rigorous intellectually (an extensive reading list, written homework assignments, and a fast-paced curriculum) and physically (four to eight hours of outside hands-on work per day). How well are you prepared to succeed in the course given this level of challenge? Please indicate any physical limitations so that WMG may accommodate them.
4. How did you find out about the Water Harvesting Certification Program?
5. We offer a limited number of scholarships (up to \$300) to defray some of the cost of the course for participants in need. If you would like to be considered for a scholarship, please explain your financial need. How would a scholarship assist you in attending this program?
6. Which course are you applying for (city and dates)? If space is not available in the course, is there another session you would consider?
7. In order to earn certification, we require that participants attend all course sessions and complete all reading and written assignments. Can you commit to participating in the entire course? Do you have any possible conflicts during the course dates?
